Welcome to Teledata

Established in 2007, Teledata has been providing clients with high-quality colocation, server hosting, workplace recovery and data centre services for over a decade.

We are looking for an experienced IT infrastructure engineer to join the technical team and Teledata family. With a salary of up to £32,500 depending on qualifications and experience.

Bringing people and technology together...

We bring people and technology together, and you can rely on our passionate, dedicated and friendly team to give you a warm welcome and support you on every step of your career with us.

A great place to work in Manchester

Here at our Manchester HQ, you'll find a relaxed working environment where drive, enthusiasm and good old fashioned honest hard work are all rewarded with the genuine opportunity to develop a career within the hosting and IT infrastructure industry.

#TeamTeledata

Personal development and progression with real responsibility are all part of the deal at Teledata. And like many a modern workplace, we like to have a bit of fun as well!

Why choose Teledata?

- › Growing Manchester based company
- › Finalists in The Northern Tech Awards Top 100
- › Innovative, technology driven culture
- › Brilliant opportunities for ongoing development and training
